# ACE Interactive's TruServ™ and Indago™ VLTs on display at ENADA

**Stockholm, 17<sup>th</sup> March, 2009 – During the ENADA Gaming show in Rimini, 18<sup>th</sup>-21<sup>st</sup> March, ACE Interactive, a fully owned subsidiary of Aristocrat Leisure Ltd., will demonstrate TruServ™ on innovative Indago™ Video Lottery Terminals. The solution can be visited at leading Italian gaming operator COGETECH's stand (Hall a7 booth 113).**

TruServ™, ACE Interactive's Solution for true Server Based Gaming, will be demonstrated on ACE Interactive's innovative Indago™ VLT terminals. The TruServ System will showcase a range of ACE and Aristocrat games as well as games from third party providers like JvH, LED Gaming and Radsoft.

In October 2008, COGETECH and ACE Interactive jointly announced their intention to work together in order to offer server based Video Lottery Gaming in Italy under the pending Comma 6B gaming legislation.

The legislation for Comma 6B machines (or VLTs) is currently undergoing examination by AAMS (the Italian Regulator). Its introduction is anticipated for 2009-2010. Comma 6B machines will supply Server Based Gaming services and will therefore reduce many of the currently existing limitations with regards to issues such as central monitoring, proper taxation, money laundering and underage gaming.

With a population of 60 million, the Italian gaming market is one of the top three gaming markets in Europe and represents a significant growth potential for both organisations.
