

INTERACTIVE

ACE Interactive was founded in 2003 as a focused effort to develop and market the next generation of systems for operations of interactive gaming terminals. Located in Stockholm, Sweden, the iVT system is an online server-based gaming solution aimed at operators with great demands regarding flexibility, content, security and social responsibility. ACE Interactive is a wholly owned subsidiary of the Australian world leading gaming supplier Aristocrat Leisure Limited.

Aristocrat Brings the Future of Gaming to NIGA

***“Best New Slot Product”* VIRIDIAN™ Cabinet & GEN7™ Platform, Games and Systems on Display in Booth #1217**

LAS VEGAS, Nevada, USA (April 16, 2008) – There are many imposters, and only one true original. The differences can be seen in Aristocrat Technologies’ NIGA trade show booth. NIGA 08 takes place April 22-23 at the San Diego Convention Center, and from booth #1217, Aristocrat will energize the slot floors of Tribal casinos across North America with truly original games, systems, platforms and cabinets.

Aristocrat, a NIGA Associate Member since 1998, will be showing its new VIRIDIAN cabinet and GEN7 platform, which was recently named the year’s *“Best New Slot Product”* by Global Gaming Business Magazine. Wowing judges and attendees alike at G2E 2007, VIRIDIAN has been receiving global rave reviews since its launch. The VIRIDIAN cabinet is designed for optimal player comfort and operator serviceability and features a slimmer footprint, high resolution dual LCDs and unique, wrap-around belly art, creating a truly unique product offering. VIRIDIAN embraces environmentally responsible design and production methods, resulting in a 100 percent RoHS-compliant product and increased energy efficiency for operators.

Driven by an Intel™ processor, the innovative GEN7 platform features dynamic scorecards and an enhanced Easy Play on-screen interface, including player-selectable denominations. The new platform utilizes Smart card and flash card technology, and, in addition to offering an enhanced player experience, GEN7 paves the way for downloadable, server-based and wireless gaming, supporting the technology of today while driving the technology of the future.

Also powered by the GEN7 platform is the new 4-level multi-site progressive Hyperlink™, Fa Fa Fa Fortune King™, Double Standalone Progressive™ Banana King™, featuring six different bonus adventures for players to navigate and enjoy, and these exciting new innovative games: Geisha™ Power Pay™, Double Happiness™ Power Pay, Show Me The Game™ Power Pay, Butterfly Kiss™, Polynesian Pearl™, African Storm™ and Harlequin Hearts™.

Aristocrat will also be showing one of the *“Best Productivity-Enhancement Technology”* winners, ACE Interactive™. As the industry continually experiments with different content delivery channels and open source environments, ACE Interactive provides a

truly server-based solution featuring software distribution, instant or scheduled game configurations, powerful system management tools and the opportunity to implement games from any provider. Additionally, the Download and Configuration Manager, which is being co-developed by Aristocrat and Bally Technologies, will be demonstrated on the show floor.

Player's World – By Demand™ brings four highly successful low line games in three different player-selectable denominations under one umbrella in Aristocrat's first ever multi-game multi-denom product package. Utilizing Aristocrat's brand new Easy Play Interface, players will select their game and denomination of choice on screen with the option of changing games and denominations whenever they wish. Player's World – By Demand is an excellent and flexible addition to the casino floor.

Of course every operator knows Cash Express™, Aristocrat's highly successful 4-level progressive Hyperlink™, and its proven ability to attract and retain players. Now Cash Express Player's World Super™ combines the popularity of the Cash Express Hyperlink themes with the entertaining Player's World Super multi-game concept, giving players the choice of four different Aristocrat games to play.

Other must-see new product categories include Power Pay, Xtra Reel Power™, Xtreme Mystery™, 50 Line™ and 100 Line™, Reel Power™ and MAVStepper™ products. Aristocrat's Systems Division will be showcasing a suite of advanced technologies under the OASIS 360™ brand. OASIS 360 provides casino operators with the latest technologies in casino management systems, business intelligence and patron-centric promotions. OASIS SpeedMedia™ promotions utilizing the Sentinel III® in-game displays will be unveiled, the direct result of a true Ethernet solution found in the latest OASIS release 11.6.
